\* Note that to take thesis in the spring you must also enroll in the thesis preparation course (GSD 9204) in the preceding fall. Note that you cannot take thesis at the same time as a spring studio.

*This form must be submitted to the UPD office no later than **5pm on April 1, 2016**. The April submission date allows the UPD Department to schedule studios that match the expected student demand. Students should understand that their ability to choose not to take a studio option is contingent on receipt of a grade of pass or higher in a previous (core) studio. **If this form is not submitted by the deadline, the student will be presumed to have decided to take a studio option in their third term (fall) only.***
