

Master in Urban Planning Analytic Methods: Qualitative 2023-2024

Students must take at minimum 2 units in qualitative methods unless able to demonstrate sufficient experience to waive the requirement or pass an exemption exam to satisfy the quantitative methods requirement. It is highly recommended that students enroll in **GSD 5216** unless they are in a dual MPP, MPA, or MPH degree program taking a more advanced course. To postpone this requirement until after the first semester, please sign up for the [Program Director's office hours](#).
